

Solarium - more space for sun bathing

Solarium

The solarium-innovation sun-grassland offers a natural effect of browning for the first time.

On the sun-grassland you can relax as if you were out and about in the great outdoors. This is possible because of the high assembled element for browning at the ceiling. It gives tolerant space for recreative stretching for bodily and mental relaxing.

Across the 2m distance to the area where you can lie down, this solarium unfolds a gentle and quiet browning effect. Scientific studies even approve of the enormous sanitary advantages of the well-regulated ultraviolet spouts for body and psyche.
